**Re: Testimonial of Private Criminal Defense Lawyer Alan Castillo  
Regarding Diversified SCRAM Program**

As a criminal defense lawyer in staunchly conservative Orange County, the specter of jail time looms large in multiple offender DUI cases and other drug and alcohol related offenses. At [simonslaw.com](http://simonslaw.com), alternative sentencing is our goal. The objective is to keep clients out of the Orange County Jail in order to maintain their employment, family and residence. It is inevitable that a long-term jail commitment will result in a snowball effect, much like an avalanche, it buries the individual's future ability to maintain viable employment, eventually resulting in negative consequences upon one's personal and marital life.

The SCRAM unit is the backstop, the gatekeeper. It is truly the difference between long term jail commitments and an alternative sentence which allows for our clients to stay out of jail, maintain their employment, maintain their family residence and most importantly, prevent the negative consequences that will result on one's personal and family life.

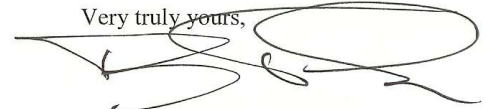

Diversified is truly the leader in Orange County. Patricia Verwiell, Steve Mohr, and Sherry Chivas have a high level of credibility and respect before our Courts. The staff and Court representatives are truly invaluable to my goal: avoid jail and keep employment. The Diversified SCRAM Program is second to none.

Very truly yours,

ALAN CASTILLO  
Attorney at Law

Very truly yours,

BARRY T. SIMONS
